MSU-40 Potable Water Storage Unit

Minimize potable water hauling costs with modular onsite storage units from **newterra** – the leader in advanced camp water solutions.

Standard features include:

- 40 m³ capacity (10,565 US gal)
- ISO-Certified 40' container
- Duplexed pump distribution system
- Integrated low level alarms
- NSF 61 Approved liner
- Easy access for internal tank cleaning
- Water flow totalizer
- Pre-wired and plumbed for fast 'plug & play' set-up & operation
- Modular design allows additional units to be integrated for more onsite storage capacity

Options:

Level transmitter

Tank filling flow meter for water delivery verification

Remote telemetry of water usage & levels

Flow history data logging

Automated chlorine monitoring & adjustment

Oilfield skid

15 m³ capacity also available (3,962 US gal)

About newterra

A Global Water Technology Leader

newterra is recognized as a leader in the development of modular treatment solutions for water, sewage, wastewater and groundwater remediation for industrial, municipal, land development, commercial & residential markets. Our heritage of innovation in providing clean water solutions dates all the way back to 1863. Over that time, **newterra** has grown to over 200 people and we've installed thousands of treatment systems – some of which operate in the most extreme conditions on the planet.

Full Control from Start to Finish

At **newterra**, we take full control of virtually every aspect of the treatment systems we build – from process design and engineering to manufacturing, installation, operations and ongoing parts & service support. That also includes manufacturing our own MicroClear® UF membranes in **newterra's** ISO 9001:2008 certified facility. This award-winning approach ensures **newterra** treatment systems meet our high standards for quality and on-time delivery.
